

Dear Friends and Neighbors:

I am excited to announce that I have filed to run to represent District 10 on the Dallas City Council. After years of being a volunteer and small business owner in our neighborhood and then leading the Lake Highlands Public Improvement District (LHPID), I am ready to take my knowledge and experience to serve our community at Dallas City Hall.

Navigating city government isn't easy. However, the insights and trusted relationships I have developed through my service as executive director of both the LHPID and the Uptown PID, as well as my service on the City's Arts and Culture Commission will enable me to hit the ground running on Day One.

Here are some of my goals

- Create an Area plan with city staff and our D10 City Planning Commissioner, Tip Housewright, that designates areas of the LBJ Corridor for appropriate and specific land uses, such as commercial, office, traditional and/or urban residential and neighborhood commercial/mixed use. We have a pivotal opportunity -- right here and now -- to shape future economic development along the LBJ corridor that will have a long-lasting impact on our community.
- Establish a new public improvement district that encompasses Forest Lane/LBJ from 75 east to Abrams. This will bring additional resources this area needs to address public safety and homeless issues, setting the stage for potential redevelopment and improved quality of life.
- Keep our neighborhoods safe with a constant focus on public safety and innovative strategies that ensure all our resources are working together. I will continue to work closely with law enforcement to ensure our residents are informed, through crime watch discussions, community meetings and regular updates.
- Continue our commitment to our parks, trails and community beautification. Building on the work we have done for years to improve our parks, connect our trails and improve the landscape within D10, I will focus on engaging our community to embrace, enjoy and continue to improve our area's outdoor resources
